Press Release

RexPak™ Hydraulic Power Units by Bosch Rexroth
Streamlining the Engineering Process with Standard Hydraulic Power Packs

Design and custom-configure your next hydraulic power pack, by collaborating with Bosch Rexroth using the unique new RexPak™ hydraulic power unit platform.

Rexroth’s RexPak™ hydraulic power unit bridges the gap from standard market products to engineered-to-order, customer power units for a variety of industries from machine tool applications on the shop floor to marine and offshore work miles from land.

RexPak™ power units are high quality power units, offered at a competitive price and delivered with exceptionally short lead-times for standard configurations. RexPak units are developed based on engineering, rules based programming incorporating years of Rexroth design intelligence into a custom developed design configurator. RexPak™ champions are available to support all of your configuration needs.

RexPak™ has been designed to industrial standards and features a wide range of fixed and variable displacement pumps along with an unmatched choice of options and accessories to meet your application needs. At the heart of all
Press Release

RexPak™ units are the same high quality components found on all Rexroth power units. Every component has been pre-selected and tested by Rexroth’s applications Hydraulic engineering specialists. RexPak™ is optimized to yield the smallest footprint possible without sacrificing functionality and maintenance. RexPak™ fully conforms with the high quality standard of workmanship and dependability one would expect from a Rexroth product. A comprehensive documentation package specific to your power pack is available at time of quote, which includes a bill of material, general hydraulic schematic, 2-D general assembly drawing, 3-D model, and data sheets for all components (if requested).

The RexPak™ product offering is continually expanding to meet more of your applications. For further information or to request a quotation visit the RexPak™ website at www.boschrexroth-us.com/RexPak

About Bosch Rexroth:
Economical, precise, safe, and energy efficient: drive and control technology from Bosch Rexroth moves machines and systems of any size. The company bundles global application experience in the market segments of Mobile Applications, Machinery Applications and Engineering, Factory Automation, and Renewable Energies to develop innovative components as well as tailored system solutions and services. Bosch Rexroth offers its customers hydraulics, electric drives and controls, gear technology, and linear motion and assembly technology all from one source. With locations in over 80 countries, roughly 36,700 associates generated sales revenue of approximately 5.7 billion euros ($7.6 billion) in 2013. To learn more, please visit www.boschrexroth-us.com

About Bosch:
The Bosch Group is a leading global supplier of technology and services. In 2013, its roughly 281,000 associates generated sales of 46.1 billion euros ($61.2 billion.) (NB: Due to a change in accounting policies, the 2013 figures can only be compared to a limited extent with the 2012 figures). Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. The Bosch Group comprises Robert Bosch GmbH and its roughly 360 subsidiaries and regional companies in some 50 countries. If its sales and service partners are included, then Bosch is represented in roughly 150 countries. This worldwide development, manufacturing, and sales network is the foundation for further growth. In 2013, the Bosch Group invested some 4.5 billion euros in research and development and applied for some 5,000 patents. This is an average of 20 patents per day. The Bosch Group’s products and services are designed to fascinate, and to improve the quality of life by providing solutions which are both innovative and
