## A full range of services for your Häggglunds drive system

As the source of Häggglunds drive systems, only Bosch Rexroth can bring you the full range of Häggglunds service options, based on the latest knowledge and technology.

### Häggglunds field service

From inspections to preventive maintenance, Rexroth field service engineers are ready to meet your needs on site – wherever you happen to be. Our local Häggglunds service specialists have a complete understanding of your Häggglunds drive system, as well as your situation. With their unique training and equipment, they resolve your drive issues quickly and completely.

Examples of our field service include **start-up support, condition-based maintenance, fitness checks, and emergency support.**

### Häggglunds drive repairs

The rugged design and leading-edge technology of Häggglunds products are the result of world-class workmanship. That same workmanship is found in the unique tools and processes used by Rexroth experts to repair Häggglunds motors and drive systems. Our skilled Häggglunds service specialists are factory-certified to repair Häggglunds products, which gives you solid assurance that the work will be done right.

Our repair offering includes **fixed-price repairs, preferred lead times, reman exchange, product upgrades, and more.**

### Häggglunds spare parts

Only genuine Häggglunds spare parts deliver the same world-class performance as the Häggglunds drive systems you depend on. Our spare parts program, which can be combined with discounts and extended warranty options, gets Häggglunds parts to you quickly and reliably. Strategically located parts inventories, found at Rexroth service centers worldwide, ensure it.

Beyond Häggglunds parts themselves, we can offer **inventory management, dedicated spares and kits, and stocking of emergency units.**

### Extended Häggglunds Service

Rexroth can also provide a wide range of other services related to the Häggglunds drives and drive systems, including:

#### ► Remote technical support

You can turn to our Häggglunds experts for support by phone, e-mail, etc. Support time can be arranged by the hour or incorporated into a Service Agreement.

#### ► Modernization

After a discussion of your needs, we can propose ways to upgrade your Häggglunds drive equipment and application, for example to reduce energy consumption or increase power density.

#### ► Customer training

We can provide you with customized training packages, focused on maintaining your Häggglunds drive and getting maximum performance from your system.
